Micro-CRM

Inefficient Lead Management

## Overwhelmed by disorganized lead tracking

Field professionals often struggle with managing leads effectively, leading to missed opportunities, delayed responses, and ultimately, **lost revenue**. A streamlined solution is crucial for efficiency.
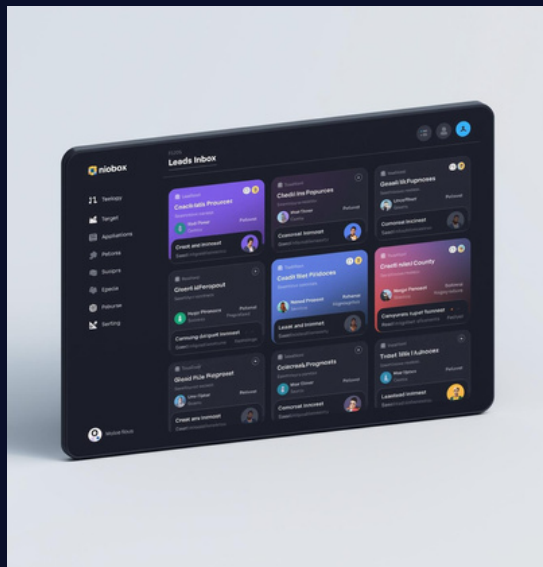

Streamlined Mini-CRM

Effortless management for field professionals

Our mini-CRM offers a **user-friendly interface** designed for field professionals, enabling efficient lead management, easy estimates, and seamless payment integrations—all in one powerful tool.

Key Features of Micro-CRM App

Leads Inbox

Efficiently manage and prioritize incoming leads.

1-Tap Estimate

Quickly create accurate estimates with one tap.

Invoice Creation

Create detailed invoices in seconds effortlessly.

Apple Pay Integration

Facilitate quick and secure payments effortlessly.

Estimates

01   Estimate

Quickly generate accurate estimates with a single tap, enhancing efficiency and reducing time spent on paperwork.

02   Invoice

Effortlessly create professional invoices that can be sent directly to clients, streamlining the billing process significantly.
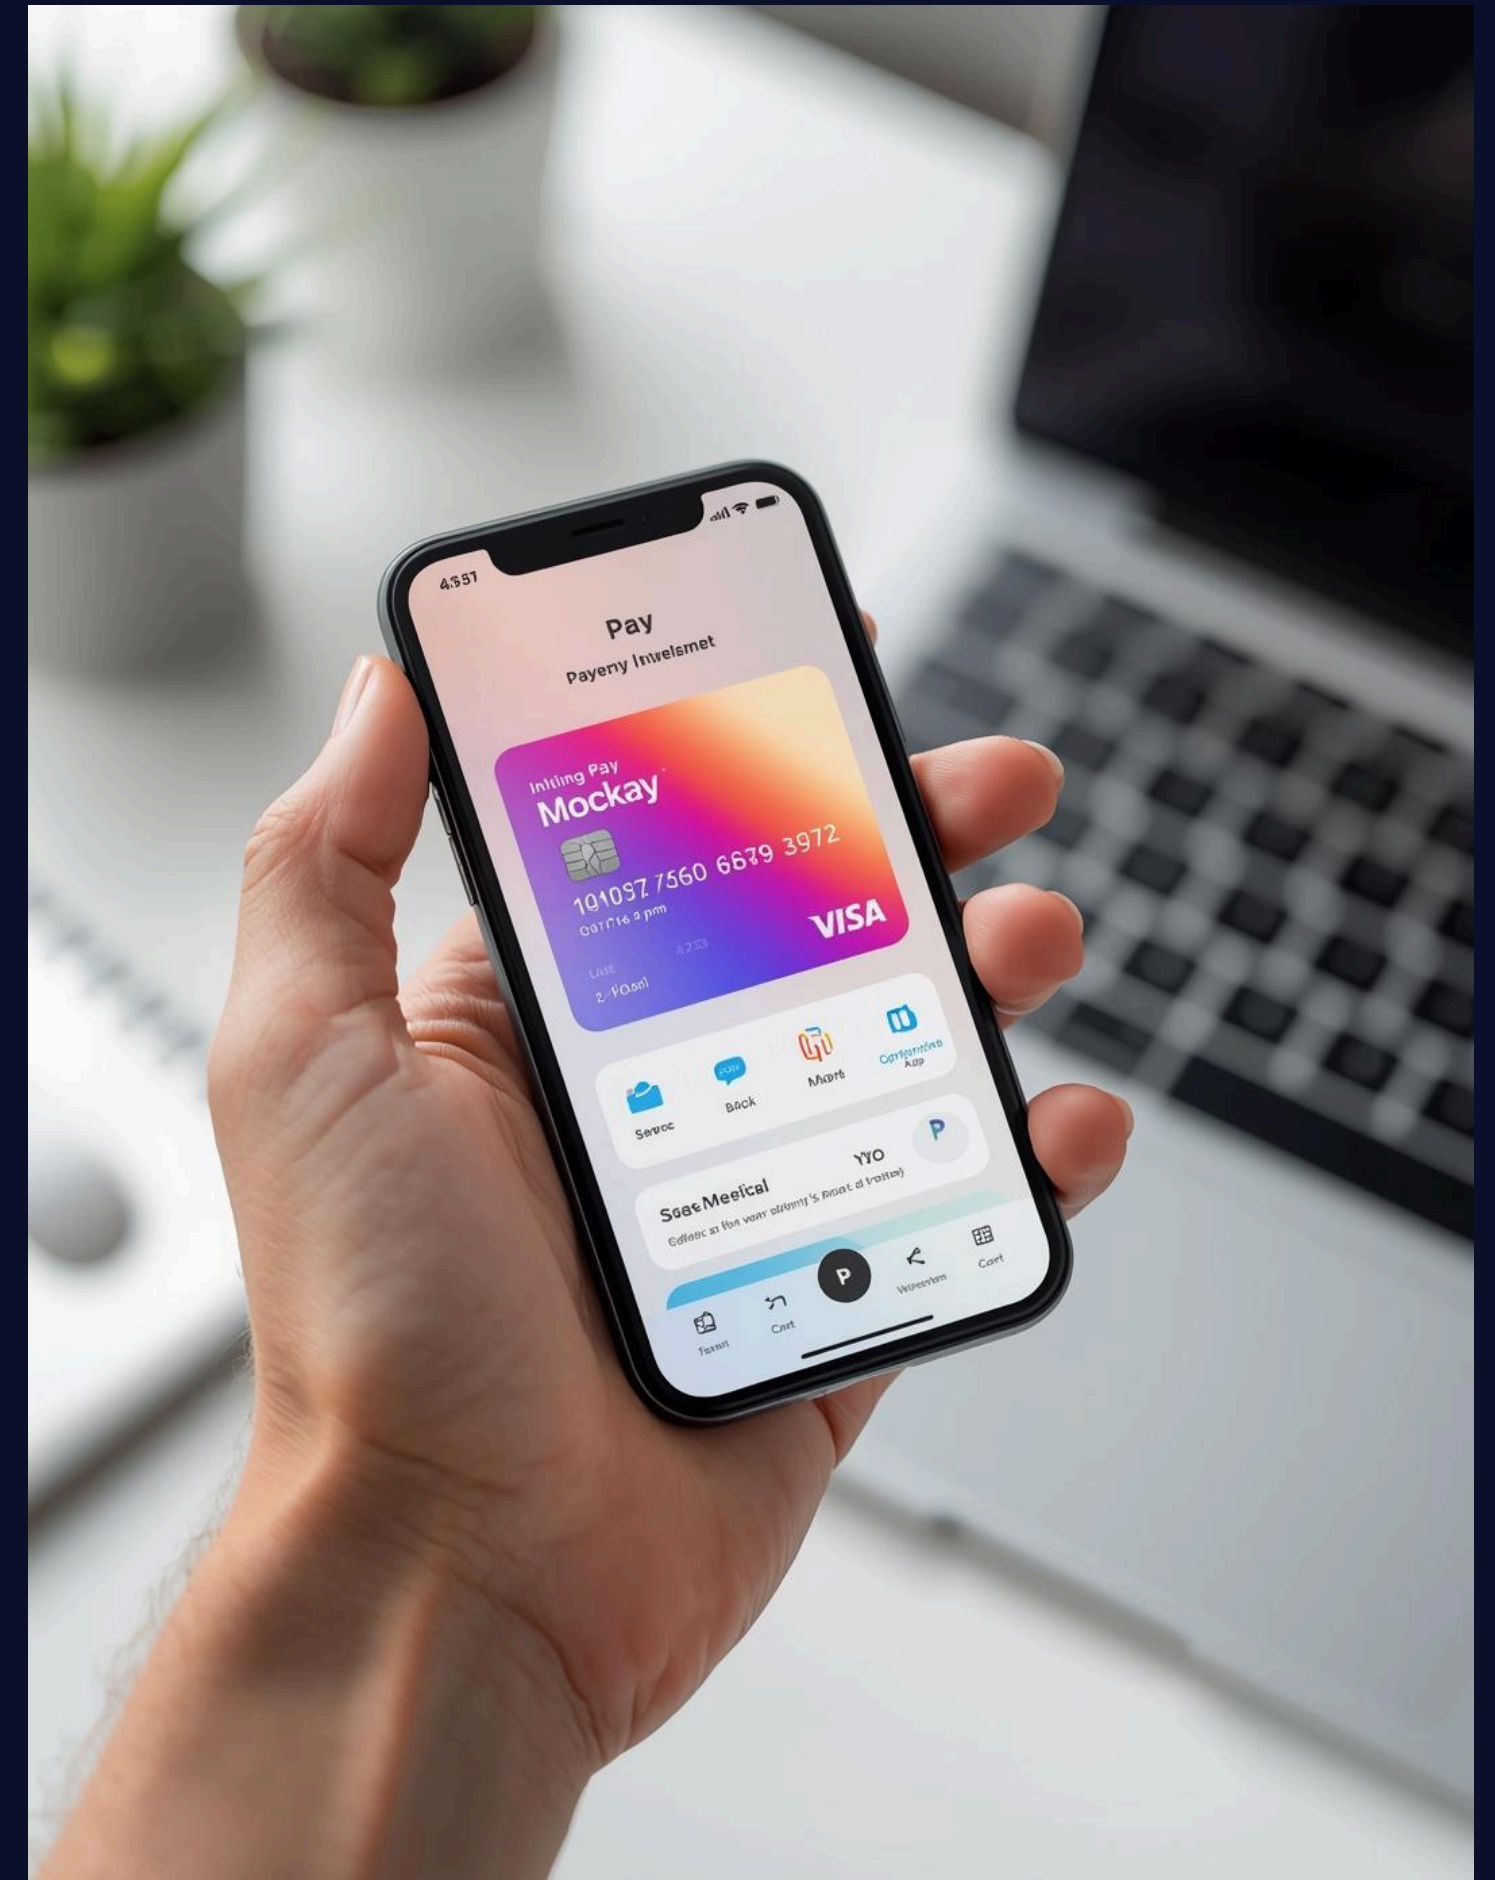

Payments

01   Streamlined

Apple Pay offers a **seamless payment** experience for
users, enabling swift transactions directly from the app
interface, enhancing convenience.

02   Secure

Utilizing Apple Pay ensures **transaction security**,
safeguarding user data and building trust through Apple's
robust security measures and protocols.

Local
Services

Tedious Quoting Process
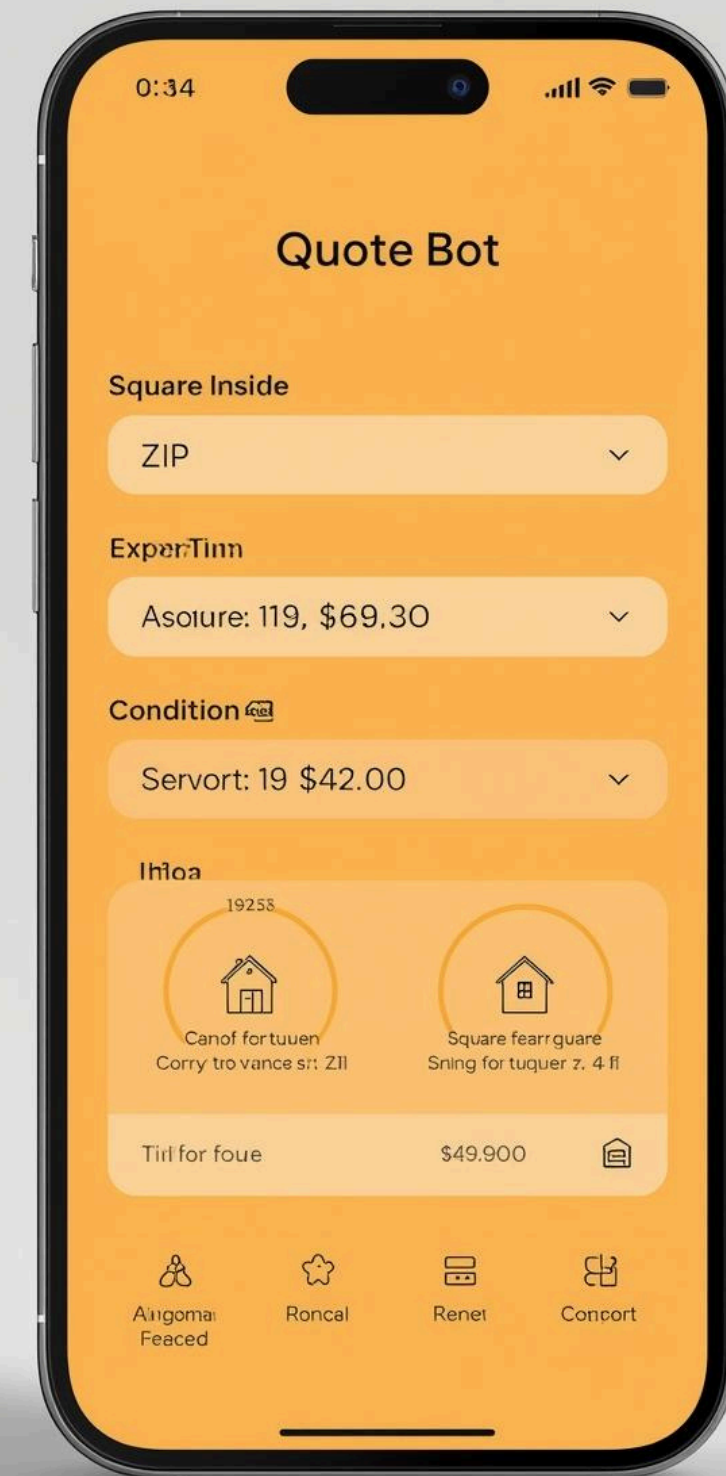

Frustration in obtaining timely estimates

Customers often face **unnecessary delays** when seeking service quotes, leading to frustration and dissatisfaction. A streamlined approach is essential for improving their experience and maintaining loyalty.
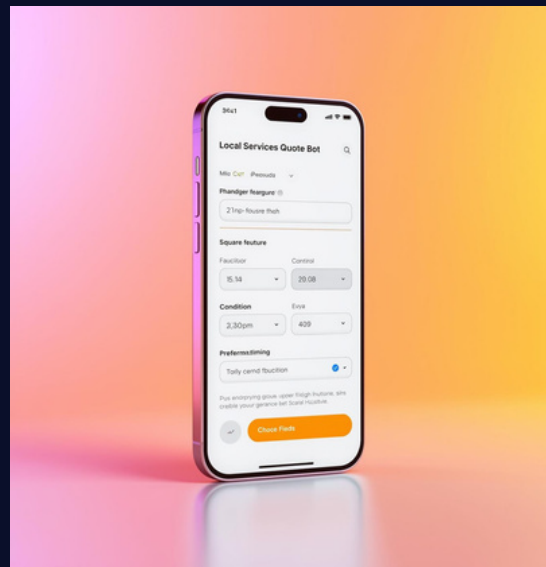

Instant Quote Bot

Seamless and efficient quoting experience

The **Instant Quote Bot** redefines customer interactions by providing quick, accurate quotes based on structured inputs, ensuring a user-friendly experience that enhances service efficiency and satisfaction.
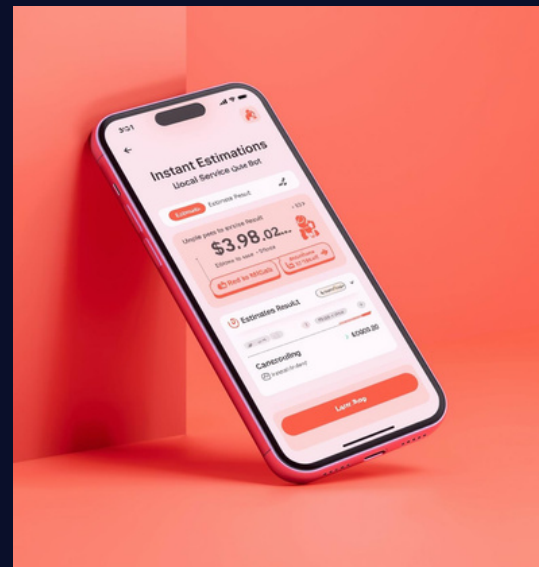

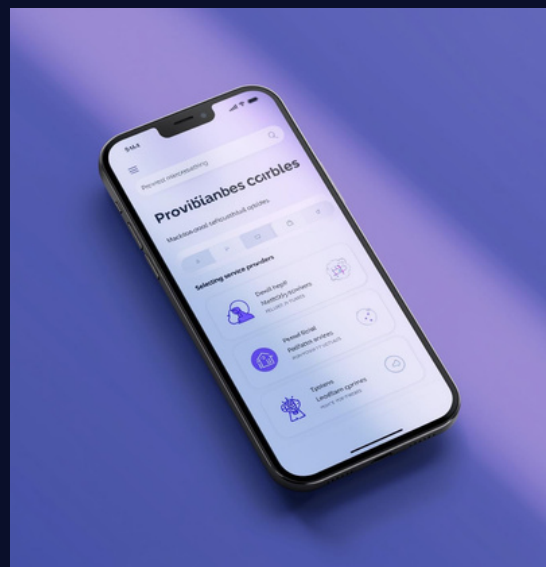

Key Features of the Quote Bot

Structured Intake

Collects essential details for accurate quotes.
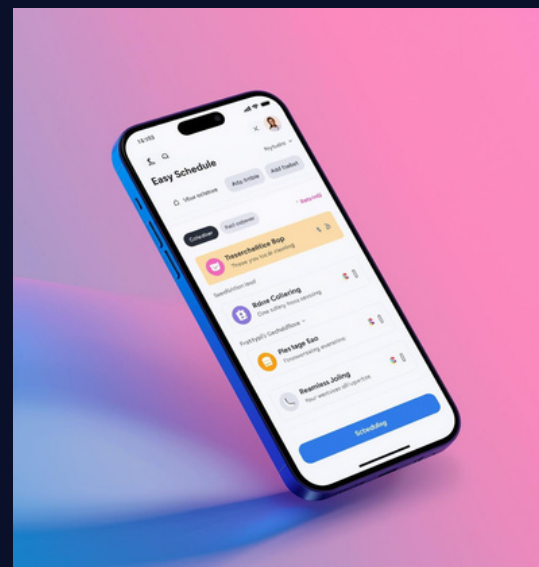

Instant Estimate

Provides quick and reliable cost estimates instantly.

Provider Matching

Connects users to the best service providers.

Easy Scheduling

Simplifies setting appointments with service providers.

Intake

ACCURACY

01   ## Structure

The structured intake form captures essential details, including ZIP code, square footage, and specific conditions, ensuring accurate quotes.

02   ## Efficiency

Streamlined data entry allows for quick responses and minimizes user input errors, enhancing overall customer satisfaction and engagement.
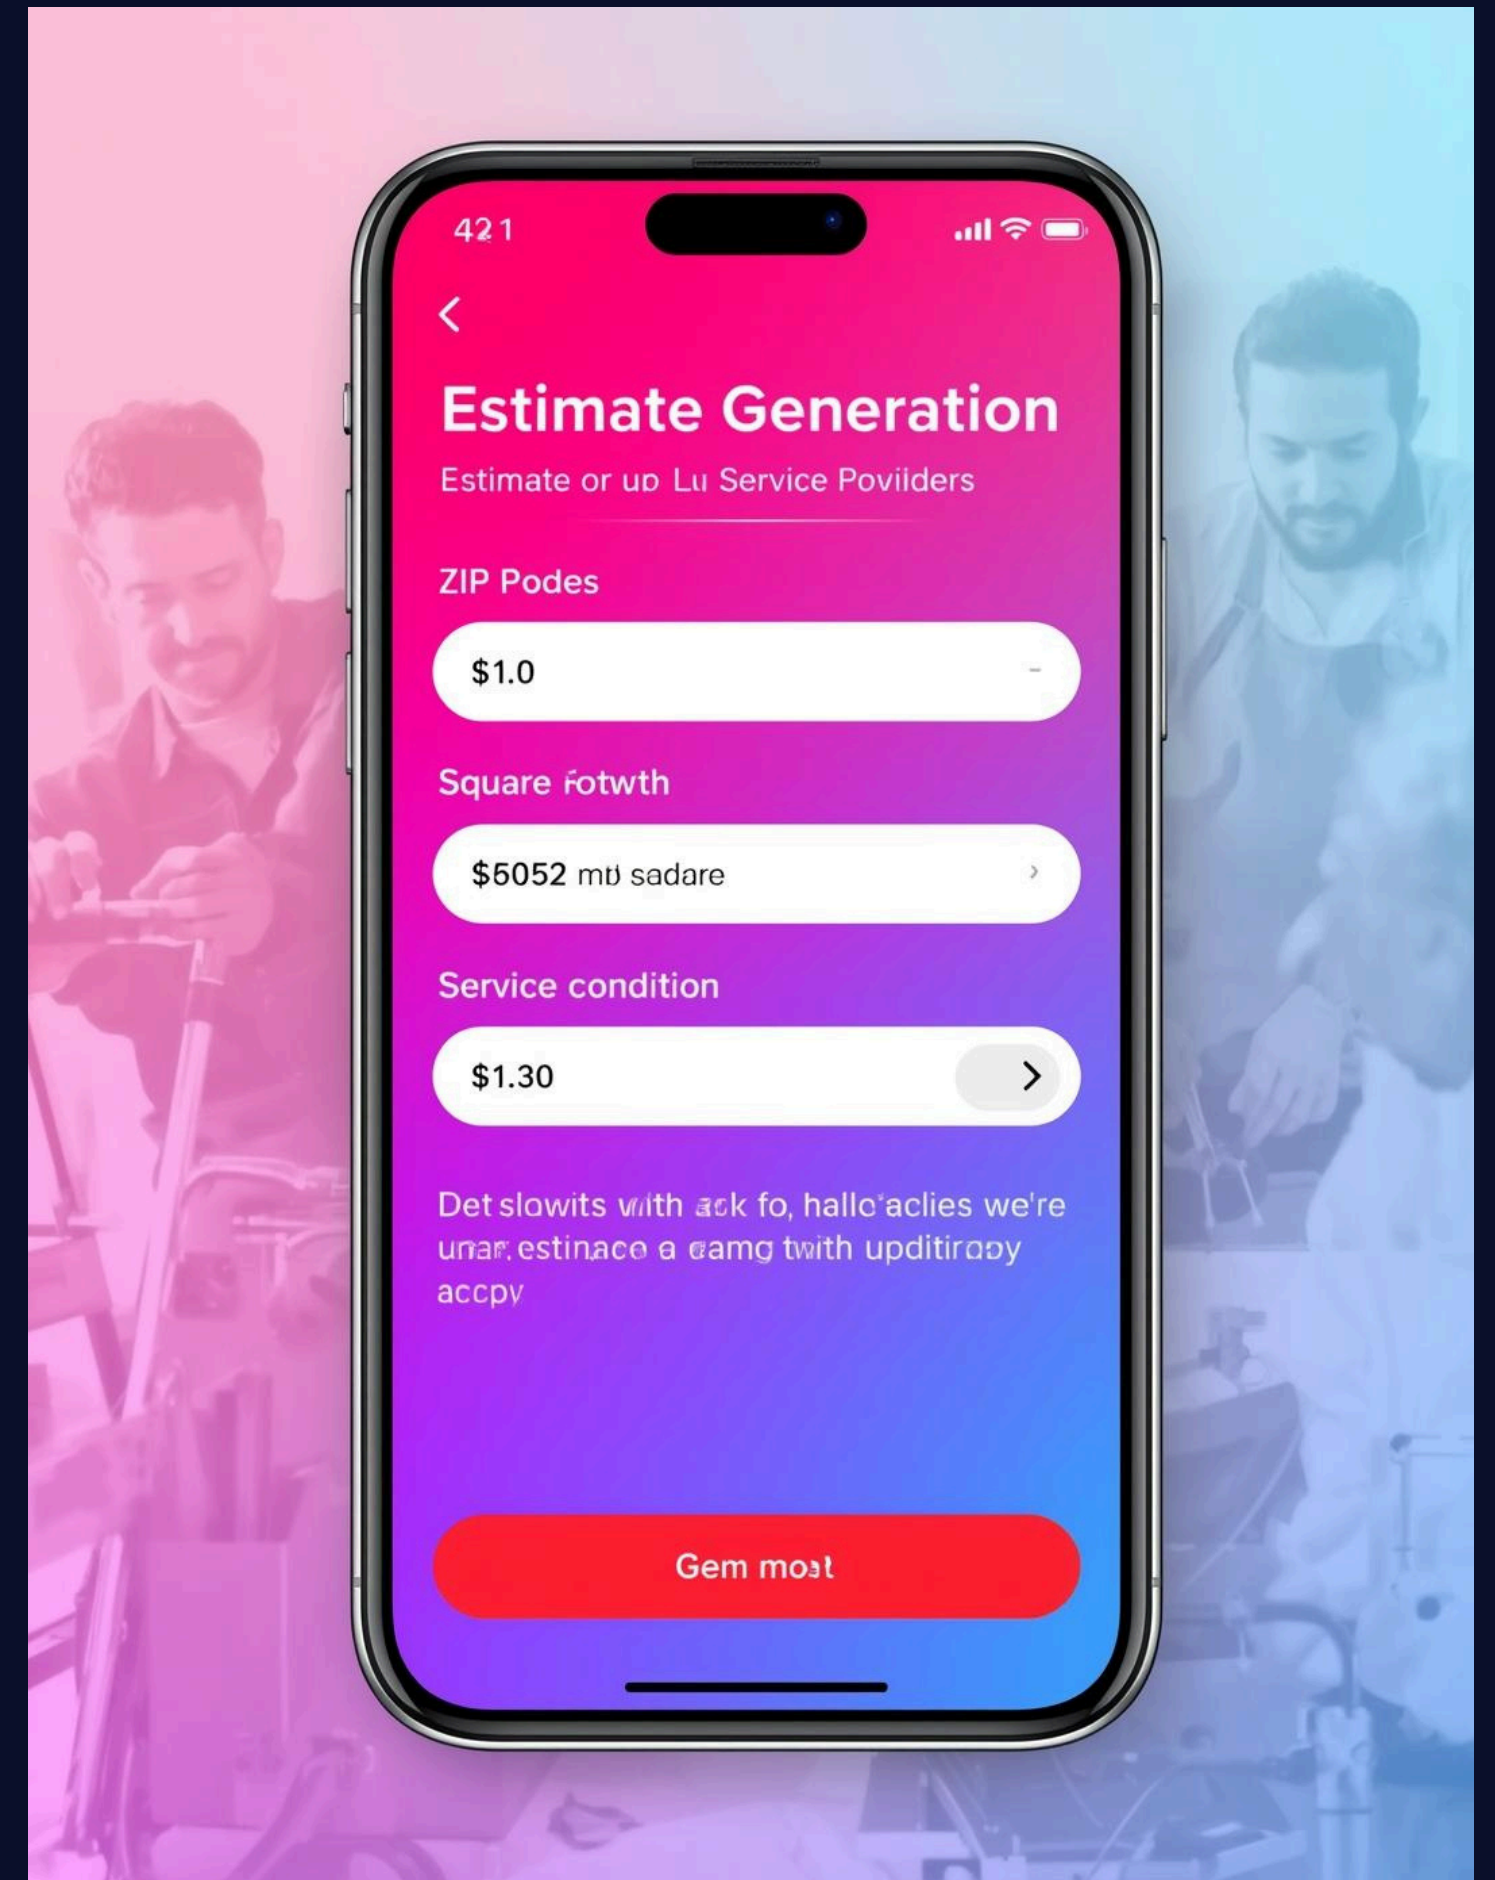

Estimate

INSTANT GENERATION

01 Intake

The app allows users to input details quickly, capturing essential information for an accurate quote generation.

02 Matching

Instant provider matching ensures users are connected with the best local services based on their specific needs and preferences.

Matching

## 01   Selection

Users can easily browse through verified providers, ensuring they find the best match for their specific needs and preferences.

02   Recommendations

The app uses intelligent algorithms to suggest suitable service providers based on user requirements, optimizing the selection process.

85%
